

CAREER OPPORTUNITY

HITEC Luxembourg S.A., a 100%-owned Luxembourg company, has developed its business activities in the field of innovative and quality products and services. Quality management and assurance, corporate social responsibility and environmental friendly business are the basis for sustainable growth and long-term partnerships with our stakeholders.

The company offers high technology, value-added solutions covering multiple business areas: satellite ground segment technology; customer-specific and standard equipment for testing and measuring of physical properties; engineering; consulting; software & ICT development and project management. HITEC Luxembourg serves private and public sector customers at a national and international level in more than 30 countries worldwide.

Quality assurance engineer (M/F) (ref. QUAL-18)

YOUR ACTIVITIES

- Be in charge of the integrated management systems (quality, environment, health & safety, risk, corporate social responsibility), with focus on ISO 9001:2015 and AQAP 2110:2016
- Manage the documentary system, nonconformities and audits (ISO 9001, AQAP 2110, ESR, SDK, SGS USTC)
- Support teams for the definition of processes and creation of procedures and working instructions
- Manage the calibration and maintenance plan for tools and equipment
- Support engineering activities for compliancy to European directives and Regulations
- Report quality assurance activities to the management team
- Provide quality assurance support in customer projects

YOUR PROFILE & KNOWLEDGE

- Master level diploma in quality management or engineering degree.
- Experience of ISO 9001:2015. Knowledge of other ISO standards (14001, 45001, 26000) is considered as an asset.
- Good practice of project management tools
- Knowledge of risk management (ISO 31000, ISO 12100)
- Fluency in English and French or German. Luxembourgish is considered as an asset.

YOUR FUTURE

At HITEC Luxembourg you will be part of a dynamic team working on both project and product developments and have the possibility to participate in complete lifecycles of product families and to gain international project experience. You will be working in a stimulating and entrepreneurial environment and offered a salary package commensurate with your background.

If you are interested in pursuing this challenge, please send us your detailed application, in English, to:
